# William Reus of Hondo named 1973 Young Farmer of the Year

William Reus, 35, a Hondo farmer, was picked as Star Young Farmer of Texas for 1973. Chosen from ten Area candidates, the Hondo man won the highest award presented by the Texas Young Farmers Association. He was presented the award at the Young Farmer State Convention Banquet, held Friday night in the San Antonio Convention Center. Included with the award

were a trophy, a new chain saw, and \$1,100 in cash. William lives at 1204 Acorn Drive with his wife, Margaret, and three sons, Brian, 9; Philip, 4; and Mark, nine months. In 1958, after a year's study at Texas Lutheran College, William accepted a partnership in the farming operation of his father, Herman Reus. "Farmers were about scratching

the bottom at that time," says William concerning the ruinous drought years of the 1950's. The farm at that time consisted of about 600 acres.

Since then, William has built his own farming operation, including 309 owned and operated acres and 630 rented acres. He has earned 100 percent of his income from this acreage and his livestock operation.

His father, now retired, still lives in Hondo. Through the years, William has overcome many familiar handicaps which face all dryland farmers.

Drought conditions, which caused crops to die as he watched; difficulties in row-cropping due to spoilage by Johnson grass and sunflowers; and other obstacles to

## Public Notice orders election

A public notice appearing in this week's newspaper officially orders the \$200,000 bond issue called by the Hondo City Council to build a new library building and install an

automatic sprinkler system at the golf course.

The bond election is scheduled for Saturday, February 9 at the City Hall from 7 a.m. to 7 p.m.

Charles Larken Jr. will serve as presiding judge and Lorene Bendele will be the alternate presiding judge.

Voters will have an opportunity

to vote on each proposition separately, with the sprinkler system (\$50,000) being first on the ballot and the library (\$150,000) being second.

According to the notice, absentee balloting "shall be conducted at the City Hall for the period of time permitted by law (this being Friday, January 18, thru Wednesday, February 6) from 9 a.m. through 5 p.m. except Saturdays, Sundays and holidays. Mrs. Faye Walker has been appointed clerk for absentee balloting.

The official call for the bond election also points out: "said election shall be held and conducted in effect as two separate but simultaneous elections, to wit:

"One election at which the resident qualified voters who own taxable property in the City and who have duly rendered the same for taxation shall be entitled to vote and another election at which all other resident qualified voters of the City shall be entitled to vote. The votes cast at each said separate but simultaneous election shall be recorded, returned and canvassed separately.

"Where the term 'election' is used in this resolution and order for election, it shall mean the separate but simultaneous elections. In further explanation, if need be, the taxpaying voters vote in one box and the non-taxpaying voters vote in the other box . . .

## August Timmerman honored

August Timmerman, Game Warden in Medina County since 1945, has been honored in his final year with the Texas Parks and Wildlife Commission as that department's Man of the Year.

Timmerman, who will retire August 31 of this year at age 65, has served more than thirty years as a game warden in Raymondville, Uvalde, and Hondo.

Handicapped since before his career as a game warden began, by the loss of a hand in a farm accident, Timmerman overcame his disability and became a consistently outstanding game warden.

The highlight of Timmerman's performance in 1973, which went far to secure the honor for him, was his role in saving fourteen lives during the destructive spring flooding along the Medina River. That action included the rescue of a family of eight from a tree, which was inundated by the water only forty minutes after the family was saved.

Timmerman suffered an injury during the course of that rescue which later required surgery.

But despite the dramatic operations during the recent floods, Timmerman has distinguished himself year in and year out, in gaining excellent cooperation from Medina County landowners for conservation and game management programs.

The years approaching retirement age have seen him keep up the pace of activity without slacking in his efforts.

In recent months, Timmerman has traveled extensively, gathering information, pictures, and artifacts concerning the early days of game wardens in Texas.

Thanks to his gathering old patches, badges, and papers and his taped interviews with retired game wardens, Timmerman has contributed large amounts of data for a proposed Parks and Wildlife Archives.

"It is only fitting," said Dexter Harris, Chief of the law enforcement division of the Texas Parks and Wildlife Department, "that August Timmerman be honored in his last year of service to the people of Medina County and Texas."

An award ceremony will be held at 1 p.m. January 24 in Room 105 of the Parks and Wildlife Building in Austin.

## Grand Jury indicts 34

Among the indicted is Ray Owen Moczygemba, for murder with malice; two men, Rosalio Silva and Armando Garcia, were indicted for assault with intent to murder.

Indicted for escape from jail were Alfonso Louis Walker and Virginia Anderson, and Genaro Segura Bursiaga, plus one additional indictment.

Eight indictments were handed down for theft; among those were two each for Kenneth Hicks, Alfonso Walker, Virginia Anderson, Leonard W. Freeman, and Genaro Segura. Additional indictments included Donald Lange and Allen Jarrett, Harvey J. Duffy Jr., Andrew Carter, and one unidentified person still at large.

## New speed limits to be in effect Sunday

Careful how fast you motor along on Sunday morning, auto-lovers! The Texas Highway Department and the Department of Public Safety have combined to make newly-enacted speed laws effective on that date -- 12:01 a.m. Sunday, January 20, to be exact.

A quick check with the Highway Department maintenance office here in Hondo reveals that the new signs will be in place on area

highways in time to warn motorists of the fuel-saving slowdown move. Texas courts have mentioned that no speeding tickets will be prosecuted unless the correct speed limit is posted on the highway, and that consideration has kept the new law from being enforced until several weeks after its passage by the special session of the Legislature and the U. S. Congress. So watch the signs of the times on Sunday morning.

### A PUBLIC NOTICE

. . . can be found in this issue of the Anvil Herald calling for the bond election on February 9th.

I would call the public's attention to the first proposition. Don't let the wording fool you. It says it is a bond issue for parks improvement -- but it is for the automatic sprinkler system for the golf course.

This wording was proposed by the bonding company who drew up the public notice. The company's representative said this wording was so that "if any money was left over it could be used for other projects."

Now, this is a noble thought -- if any money is left over. But why camouflage the issue? Why not say it is a sprinkler system? Then if there is any money left over, and you can almost bet your last gallon of gasoline there won't be, put it into something. The City Council can find a way to do it no matter how the proposition is worded. I haven't seen them lost yet in ways of bending the rules on something they want.

Anyway, when you vote on February 9, just remember what you are voting for.

And also remember, the Anvil Herald would welcome any and all letters for or against this bond issue.

### MY OPINION

. . . on the bond issue called for February 9 has not changed. I personally do not see that the two items, a new public library building and an automatic sprinkler system, are absolutely essential at this time.

I know this is going to cause some people to get a little aggravated at me, but I couldn't feel right if I did not express my opinion on the matter.

In a recent conversation with City Councilman Bud Gwartney I asked him why the Council would call a bond issue on these two items when there are other needs of higher priority.

"We just passed it on to the people to decide," he answered. "if they want a library and the sprinkler system, then they will say so by voting. If not, then they'll turn it down."

I can't quarrel with that philosophy. It is up to the people to decide. But as much as I would love to see a new library and the sprinkler system update the golf course, I am one of the people who will have to vote against them at this particular time.

### MESSY, MESSY

. . . is the only way to describe the "energy crisis" that is presently pinching the toes of the American public. Millions of Americans want desperately to "believe someone" and do what is right for them to do when it comes to benefiting their country.

But, how in the world can you follow the right road when so many conflicting statements flow daily over the country?

And, from what I can see about the Lo-Vaca Gas company's recent dealing with curtailing South Texas cities while at the same time selling gas at higher prices to other companies, makes me feel we had better look closer to home to begin our criticism. The Railroad Commission could have prevented this, yet its members were not decisive enough.

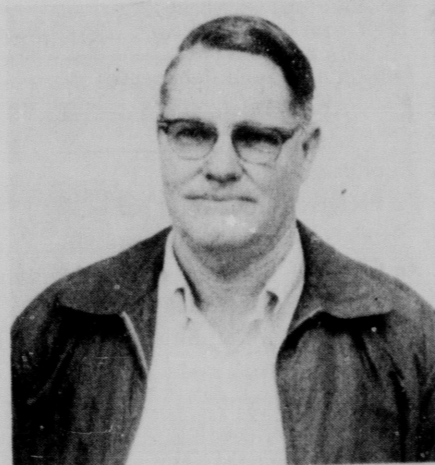

I personally feel there should be a thorough legislative inquiry into Railroad Commission actions just as we had with the Insurance Commission recently. Let's clean up the messes in our own backyard.

## Museum Day plans started

Thoughts of Museum Celebration Days 1974 are beginning to fill the minds of Museum directors.

At their January 7 meeting, they set the wheels to moving on this fifth addition of Museum Day, which is scheduled for Saturday and Sunday, May 4 and 5.

Festivities of the celebration portion will again be held on Saturday and this year President

Frank Graff has said they will be held at the City Park.

Antique Auction activities will be conducted at the Hondo Livestock Auction area on Sunday, May 5.

We are planning on the 1974 Celebration being the best ever," Graff said following the meeting. "There will be most of the same activities of the past Museum Days and some new ones."

## Young Homemakers convene

"We Laugh, We Learn, We Believe" was the theme for the 1974 Convention of the State Association of Young Homemakers of Texas, January 11-12 in the St. Anthony Hotel, San Antonio.

Organized in 1961 with two chapters, the Association now has approximately 258 chapters with 4,430 members. The organization is sponsored by Homemaking Education, Texas Education Agency.

Members of the Hondo Chapter of Young Homemakers of Texas who attended the San Antonio meeting were Margaret Reus, Evelyn Dittmar and Carolyn Baker.

The Reverend Peter McLeod, pastor of the First Baptist Church, Waco, was the main speaker for the Friday morning session. Rev. McLeod has had wide experience in leading evangelistic emphasis in both church and on college campuses. The Rev. McLeod's address, entitled "Home Is Where It Happens" was enhanced with his native Scottish brogue.

Friday noon, Young Homemakers of Texas and Young Farmers of Texas met for their annual luncheon which was held at the San Antonio

Convention Center.

On January 12, Young Homemakers welcomed former POW, Air Force Captain James Ray, who discussed "The Price of Patriotism."

Also on Saturday morning, The Young Homemakers elected and installed a new president for 1974. She is Mrs. Nelda Laney, Hale Center.

I have no strong feelings against the idea, although I enjoy as much as anyone else the pleasure of getting somewhere in a hurry. Yet, one can definitely say this measure is one of the biggest blackmail episodes of the year.

The federal government passed the law and said "the states will either comply or lose their share of the federal highway funds."

The federal government passed the law and said "the states will either comply or lose their share of the federal highway funds." In Texas this amounts to some \$240,000,000 annually. So it isn't difficult to understand why Texas went along with the plan.

Lower speed limits apply to all highways in the state, including highways under the control of the Texas Turnpike Authority, cities and counties.

Slowing down will be painful, but it might help to save our lives. I see where traffic deaths have decreased considerably since the people began driving 55 mph.

So, we can say there is good in everything.

Hutzler, who has kept these records for the Anvil Herald for many years, noted that "hereafter I will not keep record of the rainfall."

His figures show an unusually wet year which ended abruptly in November. No rain was recorded for either November or December. His figures by months are as follows:

The three-day programs are set up so that return preparers may select and participate in sessions dealing with topics of specific interest, he said. Courses will relate to individual, farm and small business tax law.

San Antonio's Sheraton Inn will be the site of the first workshop, January 8-10. Next is the Villa Capri Motor Inn in Austin, January 15-17. The third location is the Rice Hotel in Houston, January 22-24. And, the final institute will be at the Sheraton-El Paso Motor Inn in El Paso, January 29-31.

Capital gains and losses, basis and adjusted basis of property, installment sales, non-taxable exchanges and involuntary conversions, and investment credit are on the first day's program line-up.

While not as large as some neighboring farming operations, William's farm enterprise is especially noteworthy "because what I've got I worked for with my wife," William farms his land by himself.

"It takes unity in the family to get the ball rolling and to reach the goals you want to reach," William explains.

Do his sons want to be farmers like their father?

"I'd like to see that," says William, adding that they like to imitate his farm work in the same way he imitated his father as a child.

**THE FUTURE IS NOW!**

In his best selling book, "Future Shock," Alvin Toffler argues that more and more of us will be unable to cope with the accelerating changes in our society. He thinks the next several years will see an increase in suicide, hysteria and depression as people find themselves overwhelmed by rapid changes in every aspect of life.

**IS IT REALLY THAT GLOOMY?**

Along with many others we do not share this dark outlook on life. Frankly, we think that the current fad for nostalgia is really people expressing a desire for a return to a less complicated time. One where old-fashioned, easy going relationships existed.

**IT CAN BE FOUND RIGHT HERE.**

We believe that our pharmacy has the perfect blend of the modern day, complete stock dispenser of medicines, health aids and sickroom needs combined with the old-fashioned, courteous, dependable personal service you want to receive. The personal touch is still here.

**OUR NEW YEAR'S RESOLUTIONS ARE SIMPLE.**

It is our intention to continue to be a pharmacy in which you will always feel relaxed and at home. We promise to try to always have what you want, when you want it and we also pledge a cheery outlook now and in the future. Come to our pharmacy and feel right at home.

For 1974, we've improved our Big Top Certificates.

It wasn't easy.

After all, our Big Top Certificates already earn the highest insured rates available.

But we managed it. By giving them new lower minimums and shorter deposit lengths.

So you can now earn a full 6<sup>3</sup>/<sub>4</sub>% per annum for a 2½ year deposit of just \$1,000. 6<sup>1</sup>/<sub>2</sub>% per annum for a \$1,000 deposit of just 1 year's length; and 5<sup>3</sup>/<sub>4</sub>% per annum for a 90 day deposit of only \$500.

Of course, our Big Top passbook rate of 5<sup>3</sup>/<sub>4</sub>% per annum remains as great as ever. It's compounded continuously (like all our rates) with earnings available from day of deposit to day of withdrawal.

All of which means it now takes a whole lot less to earn a whole lot more at First Savings.

## Chamber Corner

New memberships continue to come in at the Hondo Chamber of Commerce. Latest additions to the growing list include Mary's Dress Shoppe, Hi-Way Drive Inn, Rev. A. M. Hannemann, DeMontel's, Inc., and George A. Koch & Son. Brings the total to 226 members, one more than the record 225 we signed up last year. Congratulations, folks!

Maybe some more of you 1973 members who haven't yet re-upped for '74 will remember to send in your membership, huh?

Mr. J. D. Schmidt has accepted a request to fill the unexpired term of Julius Aelvoet as a Director of the Hondo Chamber of Commerce for 1974-75. Welcome aboard, J.D.

The Trails Map is still a hot item around here, as evidenced by the following letters:

"Please send me one copy of 'Trails Map of Medina County,' (signed) Jim Crain, San Francisco, California."

"Please send us a copy of the 'Trails Map' and other literature we might need to thoroughly travel and enjoy your County. Thank you, Mrs. L. T. Lee, Seguin."

"Please send me a copy of your new Medina

"I would like to offer a belated 'Thank You' for the fine welcome you gave us and our Open House. We hope you had the opportunity to visit during the open house and see a little of our Hondo 4-1 division. We are proud to be a part of your community. Respectfully, Bruce Q. ## St. John's holds workshop

Saturday, January 19, members of St. John's Catholic Church will host a workshop to inform the community about preparation for the National Catechetical Directory.

A team from the Archdiocesan Office of Religious Education in San Antonio will conduct this workshop.

Members of this community as well as the

surrounding areas are invited to attend.

The opening session will begin at 10:00 a.m. in St. John's Parish Hall with an explanation of the National Catechetical Directory.

The faithful are being asked to offer suggestions for the content of this directory. This workshop will assist them in this task.

## Poerner discusses convention

As I sat among the great number of delegates, officials, and citizens at the Tuesday, January 8 opening ceremonies for the Texas Constitutional Convention of 1974, I could not suppress the feeling of pride I felt in our State.

The ceremonial pomp increased the excitement and the anticipation that this first Constitutional Convention in 98 years would result in a dynamic, viable document sensitive to the needs of all Texans.

Presentation of the colors by the outstanding contingent of Ross Volunteers from Texas A&M University and stirring choral renditions by fine group of singers from Texas Southern University heightened my feeling.

Governor Dolph Briscoe officially opened the Convention and turned the gavel over to the temporary chairman, Lt. Gov. William P. Hobby. He later turned the gavel over to the permanent president Price Daniel Jr.

Somewhere in these proceedings the pomp vanished and an atmosphere brought about by that strong characteristic that has made Texas great—that characteristic of never accepting anything without first questioning its sincerity and validity.

Questions, some valid, some not so valid, set what I feel must be the tone of this entire Convention. That tone of probing every detail of the proposed Constitution so that every idea can be examined microscopically for the good of the people.

We, as your elected delegates, must dedicate our every effort to scrutinizing each suggestion, each proposal, each idea brought forward for incorporation into a new Constitution for Texas.

That is our task. As a group of 181 delegates, we must concentrate 181 individual minds on the problem at hand and never allow pressure to force us to become a rubber stamp on delegation. But it is a task we cannot fully accomplish without help from the public. To do the job you have elected me to do, I need the help of all constituents in the 45th District.

Write me. Call me. Tell me what you feel should be included in this

vitaly important document. Each and every suggestion will receive careful consideration by me as I work toward a new contract between the people of Texas and their government—a constitution that is more in keeping with the complexities of our times.

I am honored to have been appointed a member of the Constitutional Convention Committee on Education. As a member of this Committee, I will continue my efforts to work for my constituents as my service on the House Education Committee, Legislative Property Tax Committee, and the Southern Regional Education Board has provided me a wealth of knowledge

in this area. Write me at P. O. Box 13286, Capitol Station, Austin, Texas 78711 or call my Austin office at 475-2195. My staff will be most happy to provide you with any assistance that you may need.

## New tax forms make filing easier

Do-it-yourselfers will find the task a little easier when it comes to filling out their 1973 income tax returns, according to Richard J. Stakem Jr., IRS district director for southern Texas.

Those who have never prepared their own returns ought to try it this year, he suggests.

The nation's tax collectors have come up with some welcome changes.

Schedule B, where dividends and interest were reported last year, is deleted. Out, also, is the requirement to list names and dates for claiming payments to doctors, dentists and hospitals. And, taxpayers will no longer have to list charitable contributions where they have receipts or cancelled checks to prove the donations.

The 1040A form, prefer-

red by one-third of the country's taxpayers last year, is expected to move even higher on the popularity chart with the lifting of income ceiling restrictions. You will be able to use the short form for 1973 no matter how high your income so long as it was from wages, salaries, tips, dividends and interest -- and you use the standard deduction.

The Revenue Sharing section of the return came under the paring knife. Only one block survived -- county of residence.

The Presidential Election Campaign Fund checkoff block is moved to a prominent position on the front page. In case you didn't participate in the campaign fund provision last year, you'll have another chance. There is a block for that, too. Instructions are shorten-

ed and reworded in easier-to-understand language. "We intended to make it easier for taxpayers to prepare their own returns and this year's forms package should be proof of that desire," Stakem said.

Mrs. Leroy Britsch has accepted the position of Heart Fund Chairman of Medina County, providing

other men and women of Hondo, Devine, and Castroville will volunteer to help with this campaign.

For those who may wonder what the American Heart Association has done for Medina Counties to warrant help with this fund drive, much research has been accomplished thanks to volunteer dollars from people of every county.

More than a dozen research grants went unfunded in 1973, however; due to lack of money.

Regional Director Bow Nowlin hopes in a few months that a local organization can be established in Medina County, made possible with volunteer help.

If you can help with the fund drive, please give Mrs. Britsch a call. She cannot do her job without your support. Her phone number is 426-2050.

Memorial donations for Mr. Emmett (Jerry) Kollman were made by Anne B. Davis and Martha Pickthall, whose gift included a memorial to Mrs. Minnie Fuos. Mrs. N. Paul Pope has given a memorial to Adelle Throckmorton and Harrison G. Wilson.

A varied selection of magazines were presented to the library by Mrs. L. D. Noland of San Antonio, Mr. and Mrs. Norman Buescher, Inez Beauty Shop, W. F. Gaudian, Mr. and Mrs. Robert Teague, Mr. and Mrs. A. D. Patterson, and Mr. and Mrs. O. M. Redus, who also brought in a flower arrangement for display.

The Paul Reilly family contributed "Davison's Complete Pediatrician," edited by Jay M. Arena, and magazines.

A donation from Iota Upsilon was delivered by Frances E. Miller. Other

gifts came from Louis Landers, "Future Shock" by Alvin Taffler; Leila Kindla, paperbacks; Pearl Schmidt, books; and Virginia Clift, Euell Gibbons' "Stalking the Heathful Herbs."

Non-return of overdue books seems to be a constant problem at the library. Lotie Maw, librarian, says other readers are awaiting their return. Regular library hours are 11:30 a.m. to 5:30 p.m., Monday through Friday, but the bookdrop can be used at any hour.

Daylight and darkness are having another go at integration and I am cooperating to the best of my ability. If you can't beat 'em, join 'em.

On your mark, men, A division of U. S. industries announces that wrap-&-tie pants, a new look and style for women, are just before being tried out in the men's casual trouser market.

The trend will mark "a release from the bother of zippers, snaps, buttons and other such closures."

The wrap-&-ties will be marketed under the name of AC-DC pants, probably to keep up with current trends in fashion.

Stand by for shock.

Structure and development of human leg bones, appearing to be at least three million years old, were found in East Africa by a scientific expedition organized by a young Houston geologist, who says they are indication that man walked upright in those long ago days.

If the fuel crisis is for real, maybe modern man will in time be reduced to walking upright again instead of speeding down the highway at 55 mph... after Jan. 20th.

Although I do not know how or when the famous Hondo road sign originated, the ANVIL HERALD [1/25/73] quoted one Edmund Garret thus: "The world we're passing through is God's world just as much as any we're going to."

Pictures of Rep. JOHN POERNER's Austin Get-together attest to his popularity and show promise for his pending seat-changing plans.

As JIM GREEN, one of the candidates to succeed him as Representative from 45th Legislative District says, "John has worked hard and gained the confidence of state leaders."

Add to that, he has also gained the confidence of his constituency.

Good luck y muy buena suerte, JOHN POERNER!

From last week's SPARKS, I learned of the many MEDINA's in the U. S.

My nephew BILL [E.W. Jr.] BRUCKS, DVM, moved from our Medina County to Medina County [near Akron] Ohio years ago. But the folks up there say Med-I-na and I'd bet that Bill clings to Med-E-na.

My Geographical dictionary lists these additional spell-alikes: Medina-Arkosh [Cadiz prov., SW Spain]; Medina del Campo [Valladolid prov., NW central Spain]; Medina Sidonia, Cadiz prov., SW Spain ESE of Cadiz.

And, in Spain, according to Webster, the natives pronounce their Medinas as Ma-the-na, letting the proper diacritic marks fall where they may.

It was George Eliot who left this sage observation for one of many to remember her by:

"The present moment is all we can call our own for works of mercy, for righteous dealing, and of family tenderness."

Another reminder not to procrastinate.

## Young Homemakers convene

"We Laugh, We Learn, We Believe" was the theme for the 1974 Convention of the State Association of Young Homemakers of Texas, January 11-12 in the St. Anthony Hotel, San Antonio.

Organized in 1961 with two chapters, the Association now has approximately 258 chapters with 4,430 members. The organization is sponsored by Homemaking Education, Texas Education Agency.

Members of the Hondo Chapter of Young Homemakers of Texas who attended the San Antonio meeting were Margaret Reus, Evelyn Dittmar and Carolyn Baker.

The Reverend Peter McLeod, pastor of the First Baptist Church, Waco, was the main speaker for the Friday morning session. Rev. McLeod has had wide experience in leading evangelistic emphasis in both church and on college campuses. The Rev. McLeod's address, entitled "Home Is Where It Happens" was enhanced with his native Scottish brogue.

Friday noon, Young Homemakers of Texas and Young Farmers of Texas met for their annual luncheon which was held at the San Antonio

Convention Center. On January 12, Young Homemakers welcomed former POW, Air Force Captain James Ray, who discussed "The Price of Patriotism."

Also on Saturday morning, The Young Homemakers elected and installed a new president for 1974. She is Mrs. Nelda Laney, Hale Center.

I have no strong feelings against the idea, although I enjoy as much as anyone else the pleasure of getting somewhere in a hurry. Yet, one can definitely say this measure is one of the biggest blackmail episodes of the year.

The federal government passed the law and said "the states will either comply or lose their share of the federal highway funds."

The federal government passed the law and said "the states will either comply or lose their share of the federal highway funds." In Texas this amounts to some \$240,000,000 annually. So it isn't difficult to understand why Texas went along with the plan.

Lower speed limits apply to all highways in the state, including highways under the control of the Texas Turnpike Authority, cities and counties.

Slowing down will be painful, but it might help to save our lives. I see where traffic deaths have decreased considerably since the people began driving 55 mph.

So, we can say there is good in everything.

For 1974, we've improved our Big Top Certificates.

It wasn't easy.

After all, our Big Top Certificates already earn the highest insured rates available.

But we managed it. By giving them new lower minimums and shorter deposit lengths.

So you can now earn a full 6 $\frac{3}{4}$ % per annum for a 2 $\frac{1}{2}$  year deposit of just \$1,000. 6 $\frac{1}{2}$ % per annum for a \$1,000 deposit of just 1 year's length; and 5 $\frac{3}{4}$ % per annum for a 90 day deposit of only \$500.

Of course, our Big Top passbook rate of 5 $\frac{1}{4}$ % per annum remains as great as ever. It's compounded continuously (like all our rates) with earnings available from day of deposit to day of withdrawal.

All of which means it now takes a whole lot less to earn a whole lot more at First Savings.

### Mrs. Britsch Heart Fund Chairman

Mrs. Leroy Britsch has accepted the position of Heart Fund Chairman of Medina County, providing

other men and women of Hondo, Devine, and Castroville will volunteer to help with this campaign.

For those who may wonder what the American Heart Association has done for Medina Counties to warrant help with this fund drive, much research has been accomplished thanks to volunteer dollars from people of every county.

More than a dozen research grants were unfunded in 1973, however; due to lack of money.

Regional Director Bow Nowlin hopes in a few months that a local organization can be established in Medina County, made possible with volunteer help.

If you can help with the fund drive, please give Mrs. Britsch a call. She cannot do her job without your support. Her phone number is 426-2050.

## Library News

Much new reading material has been donated to Hondo Public Library in recent weeks. Atlantic Monthly and Harper's magazines were brought in by Martin Noonan. The library needs more issues of these publications and also copies of American Heritage.

Memorial donations for Mrs. Emmett (Jerry) Kollman were made by Anne B. Davis and Martha Pickthall, whose gift included a memorial to Mrs. Minnie Fuos. Mrs. N. Paul Pope has given a memorial to Adelle Throckmorton and Harrison G. Wilson.

A varied selection of magazines were presented to the library by Mrs. L. D. Noland of San Antonio, Mr. and Mrs. Norman Buescher, Inez' Beauty Shop, W. F. Gaudian, Mr. and Mrs. Robert Teague, Mr. and Mrs. A. D. Patterson, and Mr. and Mrs. O. M. Redus, who also brought in a flower arrangement for display.

The Paul Reilly family contributed "Davison's Complete Pediatrician," edited by Jay M. Arena, and magazines.

A donation from Iota Upsilon was delivered by Frances E. Miller. Other

gifts came from Louis Landers, "Future Shock" by Alvin Taffler; Leila Kindla, paperbacks; Pearl Schmidt, books; and Virginia Clift, Euell Gibbons' "Stalking the Heathful Herbs."

Other new books on library shelves include "Sketches of Life in the United States of North America and Texas" by Von Wrede; "C

library shelves include "Sketches of Life in the United States of North America and Texas" by Von Wrede; "Capitol Cook Book" compiled and edited by Sue Creighton; Double-day Book Club's selection, "The Curse of Kings" by Victoria Holt; Literary Guild's "Stay of Execution" by Steward Alsop, and from the Texian Press, "Texac Volunteers in the Mexican War" by Henry W. Barton.

Non-return of overdue books seems to be a constant problem at the library. Lotie Maw, librarian, says other readers are awaiting their return. Regular library hours are 11:30 a.m. to 5:30 p.m., Monday through Friday, but the bookdrop can be used at any hour.

## All she wrote

by Edna McDade

Daylight and darkness are having another go at integration and I am cooperating to the best of my ability. If you can't beat 'em, join 'em.

On your mark, men, A division of U. S. industries announces that wrap-&-tie pants, a new look and style for women, are just before being tried out in the men's casual trouser market.

The trend will mark "a release from the bother of zippers, snaps, buttons and other such closures."

The wrap-&-ties will be marketed under the name of AC-DC pants, probably to keep up with current trends in fashion.

Stand by for shock.

Structure and development of human leg bones, appearing to be at least three million years old, were found in East Africa by a scientific expedition organized by a young Houston geologist, who says they are indication that man walked upright in those long ago days.

If the fuel crisis is for real, maybe modern man will in time be reduced to walking upright again instead of speeding down the highway at 55 mph... after Jan. 20th.

Although I do not know how or when the famous Hondo road sign originated, the ANVIL HERALD (1/25/73) quoted one Edmund Garret thus: "The world we're passing through is God's world just as much as any we're going to."

Pictures of Rep. JOHN POERNER's Austin Get-together attest to his popularity and show promise for his pending seat-changing plans.

As JIM GREEN, one of the candidates to succeed him as Representative from 45th Legislative District says, "John has worked hard and gained the confidence of state leaders."

Add to that, he has also gained the confidence of his constituency.

Good luck y muy buena suerte, JOHN POERNER!

From last week's SPARKS, I learned of the many MEDINA's in the U. S.

My nephew BILL [E.W. Jr.] BRUCKS, DVM, moved from our Medina County to Medina County [near Akron] Ohio years ago. But the folks up there say Med-I-na and I'd bet that Bill clings to Med-E-na.

My Geographical dictionary lists these additional spell-alikes: Medina-Arkosh [Cadiz prov., SW Spain]; Medina del Campo [Valladolid prov., NW central Spain]; Medina Sidonia, Cadiz prov., SW Spain ESE of Cadiz.

And, in Spain, according to Webster, the natives pronounce their Medinas as Ma-the-na, letting the proper diacritic marks fall where they may.

It was George Eliot who left this sage observation for one of many to remember her by:

"The present moment is all we can call our own for works of mercy, for righteous dealing, and of family tenderness."

Another reminder not to procrastinate.

## Pearsall snaps Owl string

Pearsall snapped the Owls' perfect district record Tuesday night with a 49-42 win in Pearsall.

The loss pulled Hondo down into a tie with the Mavericks for the lead. Both teams now share 4-1 records for district competition.

Last Friday night the Owls had defeated Devine 72-64 in another district contest.

**PEARSALL**  
The Owls kept pace with Pearsall through the open-

ing quarter as both sides scored 14 points. The second period saw Hondo shooting freeze over as the Owls hit 3 field goals for 20 attempts, while Pearsall again scored 14 to take a 28-22 halftime lead.

Hondo nearly kept pace again in the second half as Pearsall outscored them 21-20, but it was the Owl defense that slacked after the half. Twice the Mavericks took six shots before sinking a two-point-

David Studdard led both sides with his 25-point total. Hank Carroll added 14 points to the Pearsall total.

Leading Hondo scorer was Paul Richards with 16 points; he was followed by Ray Garcia with 10, Mike Groff with 6, Bobby Rios and Bob Spears with 4 each, and Tony Hackebell with 2.

**DEVINE**  
Friday night Hondo took a big lead in the beginning, then held off the Devine Warhorses to win that game 72-64 in the Hondo gym.

Leading 17-12 after a quarter, Hondo was matched 26-26 in the second stanza. After the half, the Owls outscored Devine by quarters 13-12 and 16-14 to take the victory.

Though Paul Richards had 31 points, he was not the leading scorer; Homer Hernandez of the War-

horses led the scoring with 32. It was largely a two-man show. Bobby Rios was next highest for Hondo with 11 points, followed by Mike Groff and Ray Garcia with 9 each; and Tony Hackebell and Bob Spears with 6 apiece.

Other Devine scorers were Robert Gonzales with 9 points, and Billy Rick with 8.

Hondo will be at home tomorrow night and again Tuesday, as they meet the Dilley Wolves here Friday, followed by Cotulla on Tuesday.

**B-TEAM**  
The B-team outscored Devine 83-72 Friday night, after taking a 44-31 halftime lead. David Knowles led both teams with 33 points, followed by Augie Mendoza with 14 points, and Tobin Tilley with 13. Ciavarra led Devine with 16 points, followed by Brown with 15 and Hughes with 10.

Tuesday night they won again, this time over Pearsall, 60-50. Once again, David Knowles led both teams with 22 points, followed by Augie Mendoza with 13 and Randall Hare with 10. Abel Trevino led Pearsall's Jr. Varsity with 18.

**FRESHMEN**  
The Hondo Freshmen took an easy win over Devine by a 48-32 score. They took a 29-12 halftime lead, then held off a counterattack to win. Simon Valdez was the leading scorer with 16 points, followed by Clay

**BOBBY RIOS** ... shoots over the outstretched arms of a tall Devine defender in Friday night's victory over the Warhorses. Owls will be in action tomorrow night against Dilley. (Photo by Ted Mendoza)

Braden with 14. Ehlinger led Devine with 12, followed by Rackly with 8. Tuesday against Pearsall, it was bad news for the Frosh as the Pearsall boys won it 58-46. Lira was the top scorer with 28 points, followed by 10 by

Studdard. Hondoans were led by Orlando Reyes with 13 points, then Senon Valedz with 11.

There will be no Freshmen games with either Dilley or Cotulla.

## Hondo High starts tennis program

By Rhonda Graff

Hondo High School 1974 will be sprinkled with several welcome changes.

One of these is the tennis program being introduced into the high school athletic curriculum this spring.

It will involve grades nine through twelve, boys and girls.

Due to such a large turnout of possible players, a ladder tournament is being held to determine who will represent Hondo High at the district meet. The tennis team which will

travel to the district meet in Pearsall April 4 and 5 will include six girls and six boys.

Two divisions, Senior and Junior, are played at the district meet with each school entering a maximum of one girls' singles, one girls' doubles, one boys' singles, and one boys' doubles team for each division.

Seniors must compete in the Senior division while a freshman, Sophomore, or Junior can compete in the Junior division or the Senior Division if desired.

Senior division winners only, advance to the Regional meet at Kingsville on April 19-20.

Since we are just beginning our program and have a large number of Seniors desiring to compete, the tennis team will be composed of three senior girls and three senior boys who will compete in the Senior division, and three girls and three boys, freshman, sophomore, or junior, who will compete in the Junior division.

"I feel this will give them a year's experience to see what competition in tennis is like," Coach Larry Carroll stated.

"I am trying to set up at least two matches before the district meet, no definite dates or opponents have been determined."

### SPORT FACTS

Ralph Hauger

Basketball was originated in 1891 by Dr. James Naismith, a P. E. teacher in the Springfield, Mass. International YMCA Training School.

Basketball games weren't always high-scoring affairs, like today's. Typical scores in the earliest basketball records among YMCA's included 2-2, and 1-0 scores.

In ten years, Hondo basketball teams have won two district championships and never finished a season below .500.

## Cowboys even district record

The D'Hanis Cowboys are even at 1-1 in district competition after winning over La Pryor 41-39 on Friday, then losing 54-41 to Comstock Tuesday night. Comstock holds the lead in the district, with two wins and no losses.

The Cowboys will play in Knippa Friday night as district play continues, then will begin a season-ending home stand Tuesday against La Pryor.

**LA PRYOR**  
D'Hanis spotted La Pryor two points after the first quarter as La Pryor led 9-7, then the Cowboys outscored them 16-9 in the second period to take the lead. La Pryor played close in the second half, but the Cowboys emerged on top of a close one, 41-39.

Leading the Cowboy effort was Bobby Joe Rothe with 24 points. He was followed by Doug Kempf with 7, Richard Rothe with 6, and Ronnie Rothe with Charles Hood with 2 each.

La Pryor was led by K. Walker with 16 points; followed by T. Mann with 15; T. Gonzales with 7; and C. Perez with 2.

The D'Hanis girls lost their game against La Pryor, 35-53.

**COMSTOCK**  
The tables were turned on D'Hanis Tuesday night as they jumped to an early first-quarter 12-8 lead, then cooled off while Comstock roared back.

With the halftime score close at 23-22, Comstock, D'Hanis scored only 6 points in the third period to 12 for Comstock, and the Cowboys could never narrow the gap. The game ended 54-41, with Comstock on top.

Bobby Joe Rothe again led D'Hanis scorers with 16 points, followed closely by Doug Kempf with 15. Leading scorer for Comstock was Skyles with 16, followed by Barragan with 14 and Duncan with 12.

The D'Hanis girls lost a close one to Comstock, 26-30.

## WANT SOME FACTS ON THE FUEL SITUATION?

### LOOK AT THESE - -

1. Gas mileage increases about 25 pct. when you drive 50 miles per hour instead of 70.
2. At 24 miles per gallon achieved by a 6 cylinder model the cost of gas to operate the car for 15,000 miles at 40 cents per gallon would be \$242.00.
3. At 15 miles per gallon achieved by a V8 powered model the cost of gas to operate the car for 15,000 miles at 40 cents per gallon would be \$400.00.
4. That's \$1.62 per week more to drive one of the most luxurious cars on the road. When you consider:
  1. Comfort
  2. Safety
  3. Luxury
  4. Less Fatigue

and the fact that with a 50 MPH national speed limit you will spend more time in your car.

# Pearsall snaps Owl string

Pearsall snapped the Owls' perfect district record Tuesday night with a 49-42 win in Pearsall. The loss pulled Hondo down into a tie with the Mavericks for the lead. Both teams now share 4-1 records for district competition.

Last Friday night the Owls had defeated Devine 72-64 in another district contest.

**PEARSALL**

The Owls kept pace with Pearsall through the opening quarter as both sides scored 14 points. The second period saw Hondo shooting freeze over as the Owls hit 3 field goals for 20 attempts, while Pearsall again scored 14 to take a 28-22 halftime lead.

Hondo nearly kept pace again in the second half as Pearsall outscored them 21-20, but it was the Owl defense that slacked after the half. Twice the Mavericks took six shots before sinking a two-point.

David Studdard led both sides with his 25-point total. Hank Carroll added 14 points to the Pearsall total.

Leading Hondo scorer was Paul Richards with 16 points; he was followed by Ray Garcia with 10, Mike Groff with 6, Bobby Rios and Bob Spears with 4 each, and Tony Hackbeil with 2.

**DEVINE**

Friday night Hondo took a big lead in the beginning, then held off the Devine Warhorses to win that game 72-64 in the Hondo gym.

Leading 17-12 after a quarter, Hondo was matched 26-26 in the second stanza. After the half, the Owls outscored Devine by quarters 13-12 and 16-14 to take the victory.

Though Paul Richards had 31 points, he was not the leading scorer; Homer Hernandez of the War-

horses led the scoring with 32. It was largely a two-man show. Bobby Rios was next highest for Hondo with 11 points, followed by Mike Groff and Ray Garcia with 9 each; and Tony Hackbeil and Bob Spears with 6 apiece.

Other Devine scorers were Robert Gonzales with 9 points, and Billy Rick with 8.

Hondo will be at home tomorrow night and again Tuesday, as they meet the Dilley Wolves here Friday, followed by Cotulla on Tuesday.

**B-TEAM**

The B-team outscored Devine 83-72 Friday night, after taking a 44-31 halftime lead. David Knowles led both teams with 33 points, followed by Augie Mendoza with 14 points, and Tobin Tilley with 13. Ciavarra led Devine with 16 points, followed by Brown with 15 and Hughes with 10.

Tuesday night they won again, this time over Pearsall, 60-50. Once again, David Knowles led both teams with 22 points, followed by Augie Mendoza with 13 and Randall Hare with 10. Abel Trevino led Pearsall's Jr. Varsity with 18.

**FRESHMEN**

The Hondo Freshmen took an easy win over Devine by a 48-32 score. They took a 29-12 halftime lead, then held off a counterattack to win. Simon Valdez was the leading scorer with 16 points, followed by Clay

Braden with 14. Ehlinger led Devine with 12, followed by Rackly with 8.

Tuesday against Pearsall, it was bad news for the Frosh as the Pearsall boys won it 58-46. Lira was the top scorer with 28 points, followed by 10 by Studdard.

Hondoans were led by Orlando Reyes with 13 points, then Senon Valedz with 11.

There will be no Freshmen games with either Dilley or Cotulla.

## Hondo High starts tennis program

By Rhonda Graff

Hondo High School 1974 will be sprinkled with several welcome changes.

One of these is the tennis program being introduced into the high school athletic curriculum this spring.

It will involve grades nine through twelve, boys and girls.

Due to such a large turnout of possible players, a ladder tournament is being held to determine who will represent Hondo High at the district meet. The tennis team which will travel to the district meet in Pearsall April 4 and 5 will include six girls and six boys.

Two divisions, Senior and Junior, are played at the district meet with each school entering a maximum of one girls' singles, one girls' doubles, one boys' singles, and one boys' doubles team for each division.

Seniors must compete in the Senior division while a freshman, Sophomore, or Junior can compete in the Junior division or the Senior Division if desired.

Senior division winners only, advance to the Regional meet at Kingsville on April 19-20.

Since we are just beginning our program and have a large number of Seniors desiring to compete, the tennis team will be composed of three senior girls and three senior boys who will compete in the Senior division, and three girls and three boys, freshman, sophomore, or junior, who will compete in the Junior division.

"I feel this will give them a year's experience to see what competition in tennis is like," Coach Larry Carroll stated.

"I am trying to set up at least two matches before the district meet, no definite dates or opponents have been determined."

### SPORT FACTS

Ralph Hauger

Basketball was originated in 1891 by Dr. James Naismith, a P. E. teacher in the Springfield, Mass. International YMCA Training School.

Basketball games weren't always high-scoring affairs, like today's. Typical scores in the earliest basketball records among YMCA's included 2-2, and 1-0 scores.

In ten years, Hondo basketball teams have won two district championships and never finished a season below .500.

## Cowboys even district record

The D'Hanis Cowboys are even at 1-1 in district competition after winning over La Pryor 41-39 on Friday, then losing 54-41 to Comstock Tuesday night. Comstock holds the lead in the district, with two wins and no losses.

The Cowboys will play in Knippa Friday night as district play continues, then will begin a season-ending home stand Tuesday against La Pryor.

**LA PRYOR**

D'Hanis spotted La Pryor two points after the first quarter as La Pryor led 9-7, then the Cowboys outscored them 16-9 in the second period to take the lead. La Pryor played close in the second half, but the Cowboys emerged on top of a close one, 41-39.

Leading the Cowboy effort was Bobby Joe Rothe with 24 points. He was followed by Doug Kempf with 7, Richard Rothe with 6, and Ronnie Rothe with Charles Hood with 2 each.

La Pryor was led by K. Walker with 16 points; followed by T. Mann with 15; T. Gonzales with 7; and C. Perez with 2.

The D'Hanis girls lost their game against La Pryor, 35-53.

**COMSTOCK**

The tables were turned on D'Hanis Tuesday night as they jumped to an early first-quarter 12-8 lead, then cooled off while Comstock roared back.

With the halftime score close at 23-22, Comstock, D'Hanis scored only 6 points in the third period to 12 for Comstock, and the Cowboys could never narrow the gap. The game ended 54-41, with Comstock on top.

Bobby Joe Rothe again led D'Hanis scorers with 16 points, followed closely by Doug Kempf with 15. Leading scorer for Comstock was Skyles with 16, followed by Barragan with 14 and Duncan with 12.

The D'Hanis girls lost a close one to Comstock, 26-30.

## Texas ag-men get fuel priority

Farm fuel for 1973 will be based on annual rather than monthly allocations. This was decided by an agricultural advisory committee to the Federal Energy Office, Tuesday, Dec. 18, in a Washington meeting.

Farmers may receive up to 125 percent of the fuel they used in 1972, providing it is available, an FEO spokesman said.

A. W. (Dub) Anthony Jr. of Friona, Texas, president of Grain Sorghum Producers Association, is a member of the agricultural advisory committee and attended the Washington meeting with Jack King of Lubbock, GSPA research director.

"We told the federal people that the monthly allocation system set up several months ago simply will not work in agriculture," Anthony said on his

return to Lubbock. "The FEO people assured us they will set up a new system for the distribution of agricultural fuel based on 1972 consumption," Anthony said.

The GSPA president explained that farmers may receive up to 125 percent of their 1972 fuel "if it's available, and that's the big question," but Washington officials are predicting a fuel shortage of 17 to 25 percent.

Farmers will have draw ahead privileges under the new system to take care of seasonal changes in fuel requirements," Anthony continued.

Diesel fuel is critical for most American farmers. Anthony pointed out, since about 70 percent of the country's farm tractors are diesel powered.

## Urgent demands mean farms must produce more food

The American farmer must help produce more food to meet the urgent demands. Each time the housewife goes to the grocery store she is confronted with what to buy for her family and stay within her budget.

Today, the Soil Conservation Service provides technical assistance that farmers and ranchers need to help grow food for domestic and foreign demands and at the same time protect the long-range productivity of our land and improve our community's environment.

We do want to produce more food to meet the urgent demands, at the same time "We do not want to risk starting another dust bowl."

We are also confronted with the energy shortage. One way the farmer can help conserve energy is by following the minimum tillage type of farming. This is to produce a crop by not going over your land so many times with your tractor and leaving

the crop residue on the surface. Residue left on the soil surface will reduce the moisture lost by evaporation, reduce soil crusting and cause the soil to be in better condition. Residue left on the surface will reduce wind erosion. This is one thing the housewife would like to see during the spring when she is trying to keep her house clean.

Joe Martin, who farms west of Hondo, has managed his residue in such a way to keep it on or near the soil surface. He has seen the benefits that the residue can make to crops the next year.

Residue on the surface will decompose faster than if it is turned under. The fertilizer you apply will become available faster to the crop growing when it has humus in the soil to react with.

If you would like to discuss conservation on your farm or ranch, just contact the Soil Conservation Service in Hondo.

## Texas ag-men get fuel priority

Farm fuel for 1973 will be based on annual rather than monthly allocations. This was decided by an agricultural advisory committee to the Federal Energy Office, Tuesday, Dec. 18, in a Washington meeting.

Farmers may receive up to 125 percent of the fuel they used in 1972, providing it is available, an FEO spokesman said.

A. W. (Dub) Anthony Jr. of Friona, Texas, president of Grain Sorghum Producers Association, is a member of the agricultural advisory committee and attended the Washington meeting with Jack King of Lubbock, GSPA research director.

"We told the federal people that the monthly allocation system set up several months ago simply will not work in agriculture," Anthony said on his

return to Lubbock. "The FEO people assured us they will set up a new system for the distribution of agricultural fuel based on 1972 consumption," Anthony said.

The GSPA president explained that farmers may receive up to 125 percent of their 1972 fuel "if it's available, and that's the big question," but Washington officials are predicting a fuel shortage of 17 to 25 percent.

Farmers will have draw ahead privileges under the new system to take care of seasonal changes in fuel requirements," Anthony continued.

Diesel fuel is critical for most American farmers. Anthony pointed out, since about 70 percent of the country's farm tractors are diesel powered.

## Urgent demands mean farms must produce more food

The American farmer must help produce more food to meet the urgent demands. Each time the housewife goes to the grocery store she is confronted with what to buy for her family and stay within her budget.

Today, the Soil Conservation Service provides technical assistance that farmers and ranchers need to help grow food for domestic and foreign demands and at the same time protect the long-range productivity of our land and improve our community's environment.

We do want to produce more food to meet the urgent demands, at the same time "We do not want to risk starting another dust bowl."

We are also confronted with the energy shortage. One way the farmer can help conserve energy is by following the minimum tillage type of farming. This is to produce a crop by not going over your land so many times with your tractor and leaving

the crop residue on the surface. Residue left on the soil surface will reduce the moisture lost by evaporation, reduce soil crusting and cause the soil to be in better condition. Residue left on the surface will reduce wind erosion. This is one thing the housewife would like to see during the spring when she is trying to keep her house clean.

Joe Martin, who farms west of Hondo, has managed his residue in such a way to keep it on or near the soil surface. He has seen the benefits that the residue can make to crops the next year.

Residue on the surface will decompose faster than if it is turned under. The fertilizer you apply will become available faster to the crop growing when it has humus in the soil to react with.

If you would like to discuss conservation on your farm or ranch, just contact the Soil Conservation Service in Hondo.
